### **Opening March 30, 2020**

**Over the last several months CODA has been building a brand to emphasize a service returning to the basics. Yes, we can claim our management team has a combined 100+ years' experience. We can also mention our service will surpass the competition by far and yes, we can state our professionalism is like no other; words heard and read in most every industry.**

**However,  
the definition of CODA translates to a different ending to a previously written sequence.**

**This is our commitment. A CFS industry returning to its roots creating a logistics service that can be relied on. A pledge to offer a solution while welcoming suggestions and recommendations. A promise to return our sector of the supply chain to what it was originally built on, relationships and trust; because what we do, we do for you, recognizing our customers and colleagues.**

**CODA  
A Varied Repetition of the First**
